The bureau is reminding the GAM 2003's decision to leave the FSUE logo as is. Which are 12 yellow stars on a blue background, the text is written in Latin.

### **GAM - Elections**

We have already 2 interested candidates for bureau posts:

Juan Carlos Lopez, ES

applies for the post of President

### **GAM - Commission Proposals**

There are two proposals from France for eventual commissions:

Medical Commission:

Jean-Michel Ostermann (FR)

Conservation Commission:

no person named

### **7th European Caving Expedition Symposium**

There is no real candidature yet. The Czech Republic might be interested, but they haven't decided yet.

## **Situation in Portugal**

The Portuguese Speleological Society (SPE), founding member of the FSUE (FSCE) has taken contact with the Treasurer and has paid all outstanding subscriptions recently. (2000-2004)

The President Antonio Crispim has expressed the wish of his society to continue being a full member of the FSUE. They have send over Pedro Marote as Vice-Delegate to represent their country.

On the other hand there will be a representation of FPE, the Portuguese Federation which claims as well a membership in FSUE.

Again there will be a delicate situation between these two organisations.

## **Situation in Sweden**

Aparently the President of the SSF, Thomaz Liecken-Gustafsson has send a mail, withdrawing the Swedish membership from FSUE. This mail has never reached the Treasurer, and no copy is available. We will ask him to resend it to the bureau.

## **Projects**

Claude Mouret and Christos Petreas had a phone call last night. Christos has some ideas concerning environmental related projects, and has the idea to ask the Greek minister to push a bit the request in Brussels. This hasn't been done yet.

**end: 11:50am**
